

Formula

Big Brake Kits

The Science of Friction

Performance Braking...

...Straight out of the Box

It's the easiest thing to update your engine power but it will all be in vain if you run out of road at the first corner. The answer lies in bigger brakes, the larger the disc the greater the stopping power. Until you've experienced the ease with which AP Racing Formula Big Brakes slow you down, you will not be able to take full advantage of your cars performance. Everything you need to transform your braking you'll find in the box.

- The majority of Formula Big Brake Kits are available with either a Black or Red paint finish please ask.
